

# The industry's only fully integrated election management software

## Overview

- GEMS™—Global Election Management System—Microsoft Windows®-based election management and tabulation software.
- GEMS allows election administrators to easily and completely control every step of the election process, from ballot layout to election reporting, all in one proven application.
- GEMS automates the complete election cycle from precinct/district setup, to race definition, tabulation and reporting. One step ballot layout for electronic and paper ballots. Double ballot layout eliminated—an industry exclusive!
- GEMS is utilized in more than 1,000 election environments throughout North America.
- GEMS multilingual capabilities support numerous languages in both standard and ADA modes. Seven languages already used in actual elections—an industry exclusive!

## Fast, accurate, user-friendly ballot layouts

Simplifies the cumbersome task of defining ballot styles and layouts: Using straightforward menus and prompts, specific election parameters are presented and defined in an orderly manner. Automation then takes over to generate ballot layouts and styles. Simple point-and-click procedures.

Preview any and every ballot right on the screen.

## Flexible, foolproof reporting

Fast and customizable: GEMS' standard Internet and reporting capabilities allow election administrators to quickly report results and to customize reports for specific needs.

The most extensive and flexible report templates in the industry: There are dozens of standard reports to assist with proofing election databases and confirming ballot styles.

Sophisticated import/export features allow interface to existing voter registration

systems. Data entry tasks reduced or eliminated.

Internet results reporting: GEMS can also provide election results to the Internet in HTML, text, PDF and Java (applet) formats.

## GEMS can integrate:

- Election data entry
- Interfaces to voter registration
- Ballot layout
- Accumulation and reporting of results
- Audio recording for visually impaired voting
